Planet Labs Germany GmbH

Abstrakt

Planet revolutionized the earth observation industry with the highest frequency satellite data commercially available.

Planet's data is transforming the way companies and governments use satellite imagery data, delivering insights at the daily pace of change on earth. This differentiated data set powers decision-making in a myriad of industries including agriculture, forestry, mapping, and government. Our fleet of over 200 earth imaging satellites, the largest in history, images the whole Earth land mass daily.
